HUB
Statewide Historically Underutilized Business Program

Renewable Energy, Low Emission, CO₂ Capture and Store, Utilizing Carbon Market Climate Currency

Carbon Asset Developer Associates LLC (CADA) offers climate finance opportunities under the Paris Agreement's Article 6 offset markets. As both a project developer and contractor, we provide a value proposition which earns our customers project equity and operating revenues. We have the best emissions trading team in the world managing net-zero goals, and we are the *only* clean tech developer that has designed and implemented a carbon market for small island developing states. CADA is globally diversified and operates through its investments in over thirty-five countries.

Compliance and Voluntary Market Project Development, Financial, Exchange and Registry Services

- Paris Agreement Article 6.2 and Article 6.4 project development and implementation
- New UN Climate Change Methodology development
- International carbon market mechanisms and international rules management, generating attractive long-term risk-adjusted high quality carbon credit returns
- Monitoring, Reporting and Verification (MRV) - collects data on emission mitigation outcomes; effectively measures, reports and verifies for international and domestic registries
- Avoids verification issues and double counting through proprietary Blockchain technologies
- Advises on emission strategies and carbon trading systems in:
 - Alberta, Quebec, Ontario, BC, and the developing Canadian and Mexican rules
 - Beijing, Shanghai, Shenzhen, Hubei, Guangzhou, and Tianjin of China
 - China National Carbon Market and China Europe International Exchange for CFFEX
 - EU Emissions Trading System (ETS)
 - Shanghai Environment and Energy Exchange
 - Western Climate Initiative
- Advises on the American Carbon Registry, Gold Standard, Verified Carbon Standard (VERRA), and the Climate Action Reserve
- Protocol creation and acceptance by registries

2021: Value of traded global markets for carbon dioxide (CO₂) permits grew by 164% to a record 760 BILLION euros (US\$851 BILLION)
